The next generation of **Timber Alternative** windows has arrived

evolution[®]

THE WINDOW HAS EVOLVED

Evolution is proud to introduce the latest development in window technology.

Evolution has always been at the pioneering forefront of modern window design technology. From the creation of the first timber-alternative windows, through the development of highly energy-efficient, A-rated windows, to the finer details of crafting the highest quality period and contemporary handles that have inspired many interiors across the country.

Whilst innovation is at the heart of Evolution, the soul of the company is the merging of traditional handcrafted values with the very latest technological enhancements. Taking the best from the past and creating the most advanced products that help enhance and protect your home.

storme

The most unique, advanced stormproof window

The new Storm 2 timber-alternative range has been designed to emulate the beautiful aesthetics of traditional timber windows but without the drawbacks.

No expensive maintenance, no laborious sanding and painting, this highly energy-efficient new window comes with an A rating as standard, not as an added extra, and the excellent security features means your home is always safe, warm and secure.

What's not to love?

INTRODUCING

storme

The inspiration behind this new Storm 2 range was our customers' feedback.

You said "For once in life, we want it all!", so our challenge was to deliver all the qualities and features that you wanted in our ground-breaking new window.

Our obsession with every aspect of Storm 2, mirrors the much admired 'attention-to-detail' DNA that runs right through the Evolution range of products. It is a standard that we constantly measure ourselves against, always striving to achieve the perfect balance of design, development and detailing with the practicalities of day-to-day living.

This new window is more than the sum of its parts, it is the pinnacle of modern window technology and it is totally homegrown, all manufactured in Great Britain.

New features of Storm 2 include:

- ☞ New profile aesthetics inspired by traditional timber styling
- ☞ Exceptional energy performance
- ☞ Slimmest window available with greater glazed area
- ☞ Beautiful timber styling throughout with hand-crafted joints
- ☞ Exquisite wood effect detailing across all of the frame
- ☞ Solid looking cill proportions are similar to traditional timber windows
- ☞ Discreet trickle ventilation via our unique weather bar
- ☞ High quality range of handles and working peg-stays available, all designed & manufactured in Great Britain

Looking for lower energy bills?

The Storm 2 window carries an A-rating which is the highest rated modern window available that will make your home more energy efficient.

We use the most efficient products available as standard, that will keep your energy bills low and help conserve the heat produced in your home which helps minimise heating costs.

The Storm 2 window has a U value of 1.3 as standard, however you can improve this further by upgrading to triple glazing.

COLOURS & ACCESSORIES

Colour

If you are feeling creative, the Storm 2 window is available in a vast array of colours, with our exclusive 'Kolorbond' system we can create or match any colour you have in mind, the only restriction is your imagination!

If your tastes are more traditional, you can choose one of our popular wood-effect finishes; black, white, natural, oak and cream.

Accessories

VENTISS
WINDOWS BY DESIGN

Our handles and peg stays are made in Great Britain by Ventiss, our premium hardware manufacturer who understands our need for exclusive designs with durable materials that work effortlessly, every time.

Bars and Glass

Storm 2 is also available with our trademark Georgian bars and with optional leaded glass – please ask your nearest Evolution retail partner for details.

Our passion for traditional joinery skills and craftsmanship is something that we hold dear, every Storm 2 window is painstakingly hand finished by one of our highly skilled team.

Installation

Once you have decided upon all the details of your purchase, your nearest Evolution Retail partner will handle everything for you. They will arrange for a surveyor to assess your property and then allocate one of their skilled, experienced teams to carry out the installation with utmost care and attention.

Your Quality Guarantee

Every Storm 2 window comes with an Authentication certificate to prove your genuine Evolution purchase – keep it safe.
